DRS Project No. 14061

Re: Hiller Short Plat Questions/Concerns – 402 Slater Street South

1. Is Lot 1 able to access off of Slater Street?
2. What are the access road requirements?
3. What BMP options/requirements are there for flow control exemption?
4. Is Lot 3's building setback orientation acceptable?
5. Do lot areas of Lots 1 and 2 meet requirement given that the access easement encumbers 1,680 s.f. of 9,000 s.f. total?
